

Women Suffer

much needless pain when they delay using Cardui for their female troubles. Cardui has been found to relieve headache, backache, pain in the side and dizziness, arising from deranged organs. It does more than relieve,—if used persistently,—many have written to say that it cured them.

TAKE CARDUI

It Will Help You

Mrs. Maxwell Johnson, Tampa, Fla., writes: "Cardui cured me after doctors and everything else had failed. I had been suffering with numb spells ever since I was 16 years old. One day I decided to take Cardui. I have now taken 5 bottles and I can say that it has cured me. I advise all suffering women to give Cardui a long and fair trial."

Mrs. Johnson suffered years. Have you? Do you wish to? But why suffer at all? Take Cardui. Give it a fair trial.

Fraud and Irregularities.

"Through Attorney J. D. Atkinson, Mr. R. D. Daniel has filed a petition in the Powell Circuit Court asking that the election held in that county be declared void. Mr. Daniel was defeated for the office of County Judge by Mr. J. H. Hardwick, a Republican. In his petition he alleges gross fraud and irregularities in every precinct in the county. It had been generally understood that because Hardwick received a large majority no contest would be filed."

We do not know the facts. We have heard that the Democratic nominee and candidate is a whiskey man and that the voters of Powell would not support him, hence the election of Hardwick.

We wish that no Democrat or Republican would stand for such a curse as the whiskey traffic.

Surprised Him.

F. A. Estes, Wyandotte, Ky., says: "My hogs were so sick they could not eat and they were all scouring very badly. I gave them Bourbon Hog Cholera Remedy and to my surprise I cured them without a loss." Sold by W. S. Lloyd.

Democrats Have Sixty Majority.

The Democrats will have a joint majority of sixty in the next Legislature. It will stand: House, Democrats 73, Republicans 27; Senate, Democrats 26, Republicans 12. Totals, Democrats 99, Republicans 39.

Reuben Barnes Probably Fatally Hurt.

Latest report from the hospital at Lexington, to which the patient was taken on Tuesday of last week, is that the condition of Reuben Barnes brings great anxiety to his friends. He is the son of Jas. T. Barnes near Howard's Mill, and is 22 years old.

He with some friends had been fox hunting. His horse fell throwing the rider and falling on him. Indications are that the point of the saddle broke his spine near shoulder blade. He was instantly paralyzed. Since he was taken to Lexington particles of the backbone have been removed. His entire body below the point of injury is helpless. His father came from Lexington on Monday morning.

AMERICAN GUN INVENTORS

are abreast with

20th Century Progress

The American Arms Co. has produced a Shotgun and Rifle which are Autoloading. The Recoil Does the Work . . .

The 20th Century finds many of us dazed in astonishment at the almost unbelievable feats of science. Wireless telegraphy, the aeroplane, and the electric locomotive—when we stop to consider them, make us sit up and rub our eyes after the manner of a Rip Van Winkle. It is not that we have been asleep for 20 years, but that science works so quietly. Results which genius has been years in working out, awaken us from the routine of life and make us marvel at the progress of our age.

Cross-bows, flintlocks, and muzzle-loading rifles and guns all had their day. Then came the breech-loaders and lever action, magazine repeating rifles and hammer, then hammerless breech-loading shotguns. But the gunmaker's ambition had not yet been attained. The great endeavor of all firearms makers was to find a safe and practical way of using the recoil to do the work of ejecting and reloading.

THE REMINGTON AUTOLOADING RIFLE

Remington genius solved the problem and gave to American Sportsmen the Remington Autoloading Rifle and Shotgun, which load themselves. The safety of the shooter, however, was even more important in the mind of the inventor than the idea of relieving him of the work and worry of operating the arm.

In the Remington Autoloading type, the recoil is utilized by having the barrel movable so as to react against a stiff spring. Upon the explosion of the shell or cartridge, the kick pushes the barrel back against the spring. When the barrel moves forward, the fired shell is ejected and a loaded one thrown into place from the magazine chamber which holds five.

THE REMINGTON AUTOLOADING SHOTGUN

The danger of the powerful smokeless powder gas blowing back into a shooter's eye has always been the great problem to overcome in gun making. A thick wall of solid steel, unbroken by protruding hammer or screw hole, absolutely protects the shooter's face. A Remington is absolutely safe.

The Remington Autoloading Rifle and Shotgun stand today as the gunmaker's greatest attainment in that they load themselves, are Solid-Breath Hammerless, and present five shots at the command of the shooter's trigger finger.

The Remington Arms Company was the first to introduce the Solid-Breath Hammerless feature to the pump type of shotgun. The new Remington Pump also loads and ejects at the bottom in addition to having this Remington Solid-Breath Hammerless feature.

THE REMINGTON PUMP GUN

The Remington make is the oldest in America. Eliphalet Remington began to make Remington guns at his forge in 1816. Yet today Remington guns and rifles represent the youngest, most modern and most progressive ideas in gun-making. Eliphalet would surely rub his eyes in astonishment if he could see one of the modern Remingtons which load themselves. Perhaps in his wildest dreams his ambition had pictured a recoil-operating gun and rifle for he was a pioneer and full of progressive ideas. Surely he would say "Science works quietly but incessantly and I marvel at the 20th Century Remingtons."

The Weather.

After the summer weather which had continued until Tuesday of last week a change set in. During that day and Wednesday the thermometer was around 34 degrees, with penetrating wind, which brought shivers and in the afternoon slight snow. On Thursday morning 26 degrees was shown, with almost quiet atmosphere. Another change came.

Summer weather continues. On Sunday and Monday mornings the temperature was from 62 degrees up. We have a rose bush that is putting out new leaves and yards are beginning to put on brighter hues. Tuesday morning 33 degrees.

Lyceum Course.

The opening of the Lyceum Course of entertainments was highly gratifying to the managers. The attendance was much larger than it was last year. The Italian Boys were the center of attraction. The performance was highly creditable in every respect and was a genuine pleasure to those present.

The sale of season tickets was made through the women's organizations. Full accounting has not yet been made, but the women of the Christian Church, led by Mrs. Amelia Young, sold 125; of the Presbyterian Church, led by Mrs. Kendall, 49; of the Methodist Church, led by Mrs. Claude Paxton, 42; of the Baptist Church, led by Mrs. W. R. Thompson, 32. The special offer, \$10 in gold, goes to the women of the Christian Church. The sale of season tickets will be pushed till the next number of the Lyceum Course, December 8. By purchasing a season ticket now 40 cents will be saved. Help your good women and the Lyceum Committee by getting a ticket.

Courtroom Fight.

There was considerable excitement in the Lee Circuit Court at Beattyville on last Wednesday when H. L. Wheeler, a local attorney, and B. F. French exchanged blows in open court. Judge Adams imposed a fine of \$30 each.

Wheeler had sued French for a fee for defending him, for the murder of James B. Marcam, in the Lee Circuit Court about two years ago and the trouble arose over this.
